Education

- 2015–2019 **Ph.D Applied Mathematics**, *University of Waterloo*.
Thesis: *Invariant manifold theory for impulsive functional differential equations with applications*.
Advisors: Xinzhi Liu and Jun Liu.
Completed "Fundamentals of University Teaching" certificate program.
- 2012–2014 **M.Sc Mathematics**, *University of Ottawa*.
Thesis: *Applications of impulsive differential equations to the control of malaria outbreaks and introduction to impulse extension equations: a general framework to study the validity of ordinary differential equation models with discontinuities in state*.
Advisor: Robert J. Smith?
- 2008–2012 **B.Sc, Honours, Major in Mathematics, Minor in Life Sciences**, *University of Ottawa*.

Employment

- 2019– **NSERC Postdoctoral Fellow**, *McGill University*.
Advisor: Jean-Philippe Lessard
- 2019– **Lecturer**, *McGill University*.
 - Math 262 (Intermediate Calculus): September 2020 – December 2020.
 - Math 263 (Ordinary Differential Equations): September 2019 – December 2019.
- 2015–2019 **Lecturer, Teaching Assistant**, *University of Waterloo*.
 - Lecturer for Math 127 (Calculus for the Sciences): September 2017 – December 2017.
 - Teaching Assistant: various academic terms from 2015 – 2019 for courses including
 - AMATH 851 (Stability Theory and Applications): January 2019 – April 2019
 - AMATH 451 (Introduction to Dynamical Systems): January 2018 – April 2018
 - AMATH 331 (Applied Real Analysis): January 2018 – April 2018
 - CS 240 (Data Structures and Data Management): May 2016 – August 2016
 - MATH 237 (Calculus III for Honours Mathematics): May 2016 – August 2016
- 2012–2015 **Teaching Assistant, Tutor**, *University of Ottawa*.
 - Teaching Assistant: various academic terms from September 2012 – December 2014.
 - Math Help Center: September 2014 – April 2015.
 - Tutored students in first-year mathematics courses.
 - Bilingual (English, French) position.

Works submitted or under review

- [1] K.E.M. Church and J. Lessard. Rigorous verification of Hopf bifurcations in functional differential equations. Submitted November 2020.
- [2] K.E.M. Church. On the Cauchy problem for impulsive differential equations with

state-dependent delay. Submitted October 2020.

- [3] K.E.M. Church and G.W. Duchesne. Rigorous continuation of periodic solutions for impulsive delay differential equations. Submitted October 2020.
- [4] K.E.M. Church. Analysis of pandemic closing-reopening cycles using rigorous homotopy continuation. Submitted September 2020.
- [5] K.E.M. Church and C. Fortin. Computer-assisted methods for periodic orbits in vibrating gravitational billiards. Submitted September 2020.
- [6] K.E.M. Church and X. Liu. Invariant manifold-guided impulsive stabilization of delay equations. Conditionally accepted, IEEE Transactions on Automatic Control.

Applications of impulsive differential equations to the control of malaria outbreaks and introduction to impulse extension equations: a general framework to study the validity of ordinary differential equation models with discontinuities in state. M.Sc Thesis, University of Ottawa, 2014.

Selected honours, grants and fellowships

- 2020 **Applied Mathematics Doctoral Award**, University of Waterloo.
- 2019 **NSERC Postdoctoral Fellowship**, Natural Sciences and Engineering Research Council of Canada, two-year fellowship.
- 2019 **Joseph Wai-Hung Liu Graduate Scholarship**, University of Waterloo.
- 2019 **Travel Grant**, Waterloo Institute for Complexity and Innovation.
- 2018 **Graduate Fellowship**, Waterloo Institute for Complexity and Innovation.
- 2018 **Winner, Three Minute Thesis Competition, Mathematics Faculty Heat**, University of Waterloo.
- 2017 **Alexander Graham Bell Canada Graduate Scholarship**, Natural Sciences and Engineering Research Council of Canada, held 2017-2019.
- 2015 **President's Graduate Scholarship**, University of Waterloo, held 2015–2019.

- 2015 **Ontario Graduate Scholarship**, Government of Ontario, through University of Waterloo, held 2015–2017.
- 2016 **Best Student Paper Prize: Mathematics and Statistics**, University of Ottawa.
- 2014 **Honorable Mention, Excellence Award for Teaching Assistants**, University of Ottawa.

Invited talks and organized sessions

- 2020 **Session organizer**, *Applications and Recent Developments in Discontinuous Dynamical Systems*, 2020 CMS Winter Meeting, December 3-8.
- 2017 **Control of malaria in the presence of insecticide-resistant mosquitoes**, *The 10th Annual Ottawa Mathematics Conference*, uOttawa Distinguished Student Paper Lecture, June 16-19.
- 2016 **Bifurcations in impulsive differential equations**, *The 9th Annual Ottawa Mathematics Conference*, June 17-19.
- 2013 **A comparison of two malaria vector control strategies with impulsive differential equations**, *2013 CMS Winter Meeting*, session "Infectious Disease Modelling", December 6-9.

Contributed talks

- 2020 **Spectral theory for impulsive delay differential equations**, *2020 CMS Winter Meeting*, session "Applications and Recent Developments in Discontinuous Dynamical Systems", December 3-8.
- 2019 **Centre manifolds for impulsive delay differential equations: theory and applications**, *SIAM Conference on Applications of Dynamical Systems*, May 19-23.
- 2017 **Linearization and topological conjugacies for impulsive systems**, *The IV AMMCS International Conference*, August 20-25.
- 2015 **A new measure of robust stability for impulsive differential equations**, *The 2015 AMMCS-CAIMS Congress*, June 7-12.
- 2011 **Modelling biological phenomena with impulsive differential equations**, *2011 Canadian Undergraduate Mathematics Conference*, June 15-19.

Seminars

- 2020 **Floquet theory, invariant manifolds and control with impulsive delay differential equations**, *ISS Informal Systems Seminar*, GERAD Group for Research in Decision Analysis, November 27.
- 2020 **Rigorous computation of periodic solutions and Floquet multipliers in delay differential equations with time-forced discontinuities**, *CRM-CAMP in Nonlinear Analysis Seminar Series*, Centre de Recherches Mathématiques, October 13.
- 2020 **Ill-posed functional differential equations and applications to traveling waves in nonlocal reaction-diffusion equations**, *Applied Mathematics Working Seminar*, McGill University, September 22.

2020 **Centre manifolds for impulsive delay differential equations: approximation and applications**, *CRM Applied Mathematics Seminars*, Centre de Recherches Mathématiques, February 24.

2019 **The hidden geometry of complex dynamics and how to exploit it**, *WICI Graduate Fellowship Awardee Research Symposium*, University of Waterloo, February 12.

Workshops attended

2020 **Connections in Infinite Dimensional Dynamics**, *May 18-22*, Banff, Canada.

2019 **Rigorous Computational Dynamics in Infinite Dimensions**, *April 3-6*, Montreal, Canada.

Supervision and mentorship

2020 **Undergraduate Summer Research Project.**

- Clément Fortin, second-year undergraduate student in mathematical physics. Supervised for the summer term on a project in gravitational billiards.
- Their findings were written up as a paper submitted to *International Journal of Bifurcation and Chaos*.

2020 **CÉGEP Supervision Program.**

- Supervised three CÉGEP (pre-university) students on a winter term research project. The program is administered through McGill and counts for credit at the students' CÉGEP.
- Students worked on a project in infectious disease modelling and vaccination, completing independent readings, writing up a report and giving a presentation to their peers.

Service

2018–2019 **Chair**, *Applied Mathematics Graduate Student Colloquium*, University of Waterloo.

2018 **Chair**, *Dynamical Systems and Stability Group*, University of Waterloo.

2018– **Reviewer**, *MathSciNet Reviews*.

2014– **Manuscript reviewer**, *Nonlinear Analysis*, *SIAM Journal on Control and Optimization*, *Nonlinear Analysis: Hybrid Systems*, *Journal of Applied Mathematics*, *IEEE Access*, *AIMS Bioengineering*, *AIMS Mathematics*, *Applications of Mathematics*, *Kragujevac Journal of Mathematics*, *Control and Cybernetics*.

Professional memberships

2020– **Canadian Mathematical Society.**

2018– **Society for Industrial and Applied Mathematics.**

2016– **American Mathematical Society.**

2012– **Society for Mathematical Biology.**
